

VicCinema VMT Kit

HI-FI & HOME CINEMA

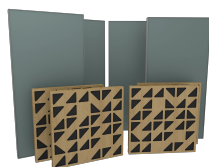

Description

The VicCinema VMT Kit is an acoustic kit developed to maximize the acoustic conditions of a Home Cinema. The kit is available in two options: a kit with products for installation on walls and ceilings and a bass trap kit for corners.

Depending on the size of your room, or the performance you want to achieve, by acquiring one or more of these kits you will be able to achieve the main goal of a Home Cinema: a neutral acoustic environment, that assures a clear and complete film audio experience without introducing any acoustic distortions that can compromise its perception.

Vicoustic developed a new line of colors and patterns exclusive for this kit, including a brand new VicPattern Ultra Triangles.

Walls & Ceiling Kit includes:

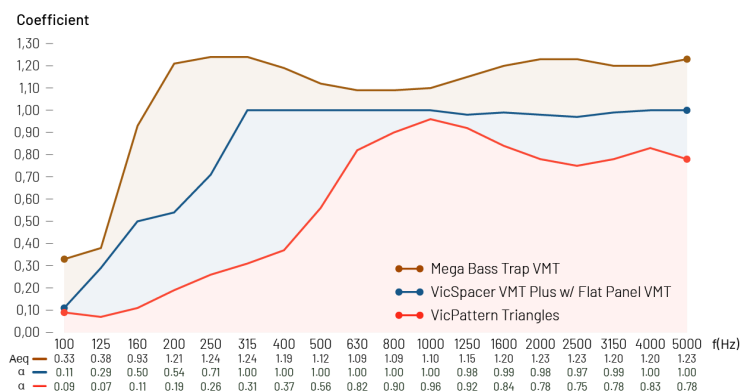

- 4 units of VicSpacer Plus with Flat Panel VMT
- 4 units of VicPattern Ultra Triangles
- 4 units of VicFix J Profile 1190 mm

Mega Bass Trap Kit includes:

- 2 units of Mega Bass Trap, with a VMT layer and VicPET Wool filling the interior to maximise the absorption

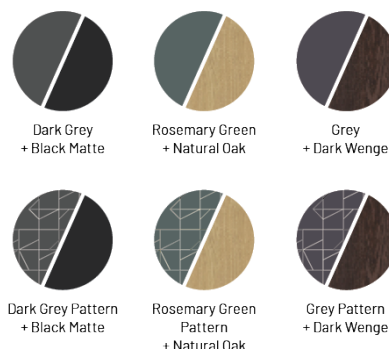

Performance

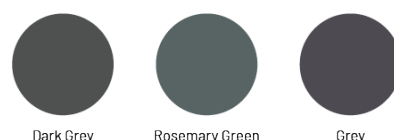

NRC: 0.95 (VicSpacer Plus with Flat Panel VMT)

Available Finishes*

Wall and Ceiling Kit:

Mega Bass Trap Kit:

* Different batches may show a color variation
